## More Than Just Performance

With increasing day to day demands on businesses, the pressure to supply an effective network is driving IT managers mad.

To relieve this stress Molex Premise Networks have developed PowerCat PLUS - an enhanced system tested to comply with the proposed standards for Category 6.

Designed and tested in Molex Premise Networks' state of the art manufacturing facilities, PowerCat PLUS easily achieves the performance necessary to run today's and tomorrow's most advanced technologies.

Leaving you more time to worry about your customers and not your network.
